

**Battlelore 2nd Edition Nobility Round Table Games May, 2017**  
as of 5/1/17

Name	Points	Title
Chris Zahnzinger	16	Squire
Kjerstie Lindeloff	14	Squire
David Bussiere	2	Squire
Paul Kelly	10	Squire
Bill Seamans	8	Squire

Each game has its own leaderboard, but there is also an overall leaderboard

For each individual game if there are at least 10 active players:

The top ranked player is deemed the Duke or Duchess and is granted two privileges; \$5 off an event if at least 6 non-staff players play and 10% off all related products for that specific game

The 2nd ranked player is deemed the Count or Countess and is granted 8% off all related products

The 3rd and 4th ranked players are deemed the Viscount or Viscountess and are granted 6% off all related products

The remaining top 25% of the total players are deemed the Barons or Baronesses and are granted 4% off all related products (discounts apply only to product not already discounted)

You are awarded 1 point for a loss and 1 additional point for each higher place you have reached at a game's end (for example in a 3 person game the points would be 1, 2 and 3 for third, second, and first place, respectively. Cooperative game points are shared among the winners, as are points when the game wins.

Weights for individual game boards are heavier for league and events days.

Games may be played at any time but results must be submitted immediately after each game with the names of the players, scores, factions/ teams (if applicable), date and start and end times.

For the overall Board Game category:

If you are at the top of the overall board game category at the end of the month you will win a free Grail card (an \$11 value )

Each place below the top spot will be awarded 10 Chivalry points multiplied by their placement (10 points for last, 20 points for next up, 30 for the spot above that, etc.)

You are still awarded 1 point for a loss and 1 additional point for each higher place you have reached at a game's end (for example in a 3 person game the points would be 1, 2 and 3 for third, second, and first place, respectively. Cooperative game points are shared among the winners, as are points when the game wins.

For the overall board, however, points are also multiplied by the game's complexity rating per boardgamegeek.com and the average time of a game.

The boards will re-set each month (this may vary depending on activity), but historical data will be retained for special events

date	Event	Player	win	loss	played	score	points	weight	total points
5/1/2017	Board Game Monday	Game	1		1		6	2	12
		Bill Seamans		1	1	0	3	2	6
		Paul Kelly		1	1	0	3	2	6
