

Android Netrunner Free Monthly League

Cost is Free

You earn 5 store points towards credit every day you play.

At the end of the month prizes are awarded as follows:

1st place gets 400 store points

2nd place gets 300 store points

3rd place gets 200 store points

4th place gets 100 store points

Arrange matches as you can with the following limitations; you cannot play in more than 7 matches in 1 week and you cannot play against the same opponent more than twice in a row in the same week. Players play full matches, meaning one game as Corp, one as Runner against the same opponent. The results of each match and Corp and Runner identities, are record on a Match slip.

Standard FFG Tournament scoring is used (10 Match Points for a win, loser gets Match Points equal to Agenda Points scored/stolen, most Match Points after two games wins the match; 2 Prestige Points awarded for winning a game, 2 additional Prestige Points for winning the Match; split Match gives each player 3 Prestige

Players are allowed to switch decks between matches.

Standings are done in order of Average Prestige Points per Game, ties broken by TOTAL Match Points (which naturally biases toward players with more matches) and then by total number of matches. If there is still a tie, the players are ranked equally and the next player is ranked two spots below.

Player Achievements (once earned, a reward must be "cleared" by "cashing in" for a 1% discount (cumulative) on Android: Netrunner products before you can earn the same reward again); cumulative for a 1% discount per reward.
